Wildflower Walk on the Pickering Trail

There are always spring flowers along the Pickering Creek. We will meet in the parking lot behind the Woolen Mill on Charlestown Road. This is usually a short walk as we look to see, and identify, what is blooming. There are some flowers that we usually see: violets, spring beauties, Jack in the pulpit, and Solomon's seal. But there are also surprises, depending on when Spring comes. Every year is a bit different, but it's always a beautiful walk. Hope you can join us.

At right: Trout Lily on the Pickering
